SUMMARY

Software Engineer specializing in backend development with Java and Spring Boot, skilled in designing distributed systems and scalable architectures to deliver high-performance solutions.

EXPERIENCE

Software Engineer - Backend (Java/Spring Boot) (2Hass | Jan 2025 - Mar 2026)

- Built scalable backend applications using Java, Spring Boot, REST APIs, Microservices, and PostgreSQL
- Developed secure backend systems with JWT Authentication, Redis, Kafka/RabbitMQ, Docker, and AI integrations.
- Used Redis for caching and application performance optimization.
- Implemented asynchronous and event-driven communication using Kafka/RabbitMQ.
- Worked on database design, API optimization, debugging, and integration of third-party services

Software Engineer - Backend (Java/Spring Boot) (Tazkiyyah | Apr 2026 - Present)

- Develop scalable backend services using Java, Spring Boot, REST APIs, Microservices, and PostgreSQL.
- Implemented secure APIs with JWT Authentication, Redis caching, Kafka/RabbitMQ messaging, Docker, and AI integrations.
- Containerized backend services using Docker and contributed to deployment and production support.

Assistant Web Master (UIU Robotics Club | 2025 - Present)

- Developed and maintained the club's web platform, supported technical events, and contributed to software solutions for robotics activities.

PROJECT

Netflix Clone (Microservices)

<https://github.com/arpondark/netflix-clone-microservice-spring-boot>

Microservice LMS System

<https://github.com/arpondark/microservice-lms-system-springboot>

E-Commerce Microservice Platform

<https://github.com/arpondark/ecommerce-spring-boot-micro-service>

EDUCATION

B.Sc, Computer Science and Engineering

United International University • Dhaka, Bangladesh • 2024 - 2027

AWARDS & HONORS

Software Team Member – Selected to represent UIU Aerial Robotics Team (UART) at the SUAS (2026 International Competition, Tulsa, Oklahoma, USA.)

Software Development AssistantTeam Lead – UIU Robotics Club.

Participant – Multiple national robotics, UAV, and software development competitions.

SKILLS

Java, C++, JavaScript, TypeScript, Python, React.js, Next.js, Spring Boot, Spring Security, REST APIs, GraphQL, Microservices, Event-Driven Architecture, Kafka, RabbitMQ, WebSocket, PostgreSQL, MySQL, MongoDB, Redis, Docker, Kubernetes, Git, Maven, Gradle, JUnit, Linux, Postman
